

A screenshot of a Twitter post by Micah Pollak (@MicahPollak) from January 2, 2022. The tweet discusses the increase in COVID-19 deaths, stating that the increase represents "huge, huge numbers" and that it's not just elderly people dying, but "primarily working-age people 18 to 64" who are employees of companies with group life insurance plans through OneAmerica. The tweet also mentions that death rates are up 40% over pre-pandemic levels. The tweet is retweeted 8,670 times and has 1,228 quote tweets. The interface shows the Twitter web app on a desktop browser.
